

PROFESSIONAL SUMMARY

Results-driven professional with 4.0+ years of experience spanning Power BI development, GCP data engineering, and quality assurance. Adept at delivering actionable insights and optimizing data workflows, leveraging expertise in Power BI, Python, and SQL. Demonstrated success in designing interactive dashboards, developing ETL pipelines, and implementing robust data engineering solutions on Google Cloud Platform (GCP). Experienced in ensuring software quality through rigorous testing methodologies and automation tools. Possesses a strong foundation in data visualization, cloud technologies, and analytics, with a commitment to continuous learning and driving impactful business outcomes.

SKILLS SUMMARY

- **Data Analysis & MSBI** : Power BI (DAX, Power Query, Data Modeling, RLS, BIService), ETL, Tableau, Looker, and interactive dashboards.
- **Data Engineering** : ETL pipelines (Apache Beam), GCP (BigQuery, Cloud Storage, Cloud Functions), and data integration from multiple sources.
- **SQL & Databases** : Optimized SQL queries, database schema design, and large-scale data processing in SQL Server, MySQL, and PostgreSQL.
- **Soft Skills** : Agile methodologies, stakeholder collaboration & problem-solving for data-driven solutions.

WORK EXPERIENCE

Power BI Developer | Tata Consultancy Services:

Dec 2021 – Till Date

- Designed and developed 20+ interactive Power BI dashboards, improving decision-making and team efficiency by 15%.
- Executed complex DAX calculations and SQL joins to build robust data models and enhance report functionality.
- Established data governance frameworks and ensured compliance with security and regulatory standards.
- Optimized Power BI reports for performance, user experience, and alignment with business objectives.
- Integrated data from diverse sources like SQL databases, SharePoint, and Excel to create dynamic dashboards.
- Conducted UAT and data validation during report refreshes, ensuring data accuracy and functionality.
- Monitored and resolved issues in existing reports during monthly and quarterly reviews, maintaining data integrity.
- Collaborated with cross-functional teams to gather requirements and incorporate stakeholder feedback for improvement.
- Documented report specifications, data sources, and development processes for future reference.
- Implemented process improvements and automation, increasing productivity by 15%.
- Supported senior leadership with presentations and insights for strategic initiatives.
- Participated in design reviews, ensuring consistency, performance optimization, and adherence to best practices.
- Led training sessions for team members to enhance their Power BI and data visualization skills. Improved reporting workflows by introducing streamlined processes and automation tools.
- Reduced report refreshes times by optimizing query performance and data models.
- Supported ad-hoc analysis requests from stakeholders, delivering actionable insights in a timely manner.
- Developed a standardized template library for Power BI, ensuring consistency across organizational reports.

GCP Cloud Data Engineer | Tata Consultancy Services

- ◆ Developed and Optimized ETL Pipelines: Built and optimized ETL (Extract, Transform, Load) pipelines using Google Cloud Dataflow and Apache Beam, resulting in a 30% reduction in data processing time.
- ◆ Implemented Real-Time Data Processing: Designed and implemented real-time data processing frameworks to handle terabytes of data, increasing data accuracy by 45%.
- ◆ Enhanced Data Integration: Integrated data from multiple sources into a centralized data warehouse using BigQuery, improving data accessibility and reporting efficiency.
- ◆ Optimized SQL Queries: Designed and optimized complex SQL queries, reducing query execution time by 35%.
- ◆ Automated Data Workflows: Utilized Google Cloud Composer (Apache Airflow) to automate data workflows, leading to a 25% increase in operational efficiency.
- ◆ Improved Data Security: Maintained database security and integrity, resulting in a 10% decrease in security incidents.
- ◆ Developed Data Transformation Scripts: Created Python scripts for data transformation, speeding up batch processes by 20%.
- ◆ Implemented Data Warehousing Solutions: Set up and managed data warehousing solutions, enabling seamless data integration and analysis.
- ◆ Generated Business Insights: Leveraged Looker for business intelligence, generating daily reports that provided actionable insights for stakeholders.
- ◆ Enhanced Data Quality: Implemented data validation and cleaning processes, improving overall data quality and reliability.

Junior Data Analyst | Tata Consultancy Services

- ◆ Collected, cleaned, and analyzed datasets to identify trends and actionable insights.
- ◆ Created visualizations and reports using tools like Power BI, Tableau, or Excel to support decision-making.
- ◆ Assisted in building and maintaining dashboards to monitor key performance indicators (KPIs).
- ◆ Conducted data validation and ensured the accuracy of datasets before analysis.
- ◆ Supported senior analysts in developing and executing data analysis plans.
- ◆ Wrote and optimized SQL queries to extract and manipulate data from relational databases.
- ◆ Collaborated with cross-functional teams to understand data requirements and deliver relevant insights.
- ◆ Identified data quality issues and recommended improvements to maintain data integrity.
- ◆ Documented data workflows, analysis procedures, and key findings for future reference.
- ◆ Stayed updated on industry trends and tools to improve analytical capabilities.

CERTIFICATION

- ◆ Google cloud certificate from udemy - Associate Cloud Engineer (ACE)
- ◆ PowerBI Data Analyst Associate (PL-300)- from udemy
- ◆ MySQL certificate from udemy
- ◆ Career Essentials in System Administration by Microsoft & LinkedIn

EDUCATION

Rise Krishna Sai Gandhi Groups of Institutions

AndhraPradesh, India

Computer Science and Engineering (CSE)

JUNE 2016 - DEC 2020

ACHIEVEMENTS

Received Applause Awards:

- ◆ Quick Learner Award on 19th July 2024 || 14th February 2025 for the Outstanding Contribution to the Organization & also for Dedication & Commitment.
